

# Jeremy Boxerman

Full-Stack Developer

Having spent over 7 years in the workforce as an assembler and quality assurance inspector, I am now pursuing a career in software development. Driven by curiosity and a passion for technology, I am eager to learn and collaborate.

## EDUCATION

### Web Development

Le Wagon Coding Bootcamp

05/2021 - 11-2021

Montreal, Quebec

Technology Applied

- Web application development using the Ruby on Rails framework
- Gained experience with SQL databases (PostgreSQL)
- Front-end development using HTML, CSS/SCSS & ES6 JavaScript & AJAX, used Figma for mockups & prototypes.
- Leveraged git & GitHub for version control & collaboration
- Deployed projects on Heroku.

## WORK EXPERIENCE

### Front-End Developer

Diff Agency

11/2021 - Present

Montréal, Quebec

Diff is a full service digital agency specialized in engineering end-to-end solutions for Shopify store owners. We can help you build an optimized ecommerce experience that converts.

Achievements/Tasks

- Coordinate daily with team members to share updates regarding assigned work and potential blockers.
- Use design mockups to code reusable components and features, ensuring responsiveness between various media queries while maintaining accessibility standards.
- Regular peer code reviews with other developers, project managers, design and quality assurance to deliver clean working code.
- Adapted quickly to continuously evolving projects to meet customer demands and deadlines.
- Maintenance of several agency projects, including fixing various bugs, updates and project improvements.

### Assembler/Quality Assurance Inspector

Paccar du Canada Ltée

08/2014 - 11/2021

Sainte-Thérèse, Quebec

PACCAR manufactures high-quality light and medium-duty Kenworth and Peterbilt trucks tailored to meet the needs of the various country markets.

Achievements/Tasks

- Assembled/inspected over 100 000 trucks, contributing to new company PQI records.
- Coordinated with team members and applied standard procedures during assembly and inspection processes to satisfy customer demands.
- Adapted quickly to a continuously changing work environment due to market fluctuations and changes in internal responsibilities.
- Interpreted truck component plans to meet quality requirements.

## SKILLS

Ruby on Rails    PostgreSQL    HTML    CSS  
Bootstrap    JavaScript (ES6)    Cloudinary  
Trello    Figma    Blender

## PERSONAL PROJECTS

Personal Website ([https://www.boxerman.dev/](http://www.boxerman.dev/)) (10/2021 - Present)

- Developed an online portfolio to showcase my work with languages, frameworks & libraries, including Ruby/Ruby on Rails, PostgreSQL, HTML, CSS/SCSS, JavaScript & Bootstrap.

Clean Kuts (<http://www.cleankuts.com/>)

- Group collaboration - a mobile friendly app with different user roles (client & barber). The client can view nearby barbers on a map, view a barber's schedule and book an appointment through a booking system that handles requests between a client and barber. A client can contact a barber via direct messaging.

RentAMon (<https://rentamon.herokuapp.com/>)

- Group collaboration - An AirBNB-type marketplace. The project combined user authentication and authorization, a map with location markers and search bar to find a monument for rent, with a basic booking system that handles requests between a user and monument owner.

MovieList (<https://jbox-rails-watch-list.herokuapp.com/>)

- Solo project - Basic user-created movie lists/bookmarks - the user can create a list, having the option of uploading a personalized background (cloudinary), choosing movies from a small selection of movies from the Movie DB through an API.
